The Office of Student Engagement may make exceptions when the student is a legal resident of Davidson County, or when there is a temporary shortage of residence hall space, or due to personal circumstances. When exception is granted, it must come in the form of written approval from the Office of Student Engagement and must be received prior to the beginning of the registration period in which the student seeks permission for off-campus residence. This contract is binding for the Academic Year (August 2012-May 2013). All students who reside in the residence halls must review and sign a housing contract. Submission of this application assumes
agreement to adhere to and follow all policies and regulations of Fisk University, the Student Code of Conduct, and Policies for Housing and Residence Life.

I have read and retained the accompanying housing contract and agree to adhere to the regulations so stated.
