NOTE: It is required of all undergraduate students who are unmarried and financially dependent on parental support, to reside on campus. Fisk believes that participation in the give-and-take of campus life is an indispensable part of a university education. The Office of Student Engagement may make exceptions when the student is a legal resident of Davidson County, or when there is a temporary shortage of residence hall space, or due to personal circumstances. When exception is granted, it must come in the form of written approval from the Office of Student Engagement and must be received prior to the beginning of the registration period in which the student seeks permission for off-campus residence. This contract is binding for the Academic Year (August 2012-May 2013). All students who reside in the residence halls must sign a housing contract.

I have read and retained the accompanying housing contract and agree to adhere to the regulations so stated and agree to adhere to the rules and regulations for on-campus housing.

Student Signature: _____ Date: _____

This application is for the Entire Academic Year and an enrolled student cannot cancel any resulting contract after August 27, 2012, unless the student graduates or withdraws before the end of the academic year 2012-2013.

Housing fees must be paid before an assignment will be made. The Office of Student Engagement cannot process payments. All payments must be processed through the Business Office.

Discrimination based on race, religion, color, national origin, sex, age, or handicap is forbidden on the campus of Fisk University.

**The university cannot assume responsibility for the loss or damage to any vehicle (or its contents) operated or parked on Fisk University property. It is strongly recommended that students living in campus housing not bring vehicles to the campus. Freshmen are especially advised against bringing their vehicles. Students who bring a vehicles to campus are required to provide proof of insurance to the Office of Public Safety
