Brotherhood of Sleeping Car Porters

In 1909, some forty-two years after black porters had become an important fixture of the railroad and sleeping car industry, black porters made their first effort to form a union. By this time, black Pullman porters had become consciously aware of their occupational grievances and had begun to discuss the possibility of correcting them through collective action.

Sixteen years later, on August 25, 1925, in New York City, the Brotherhood of Sleeping Car Porters was organized.

Under the leadership of A. Philip Randolph, the Brotherhood of Sleeping Car Porters, played a major role in the growth of the American labor movement.
Brotherhood of Sleeping Car Porters Collection
