NOTE: Full-time students are those who register for twelve or more semester hours per term; three-quarter time students are those who register for at least nine hours but fewer than twelve; and half-time students are those who register for at least six but fewer than nine. "Credit hours attained" do not include credits for courses showing transcript notations of "E," "F," "I," "WD," "WP," or "WF." Courses bearing these notations are included, however, in determining the number of semester hours for which the student has registered each term, and hence in determining full-time or part-time status.
