## ABOUT B.R.I.D.G.E. TO SUCCESS

The **Building Resources and Initiatives to Develop Growth and Enrichment (B.R.I.D.G.E.) to Success** program exists to partner with families in the development of their goals and create a legacy of economic security that passes from one generation to the next.

Ongoing workshops that cater to both the student and their caregiver ensures that the whole family receives support and access to resources that will increase their capacity for achieving better outcomes in four core areas.

This project is funded under a grant contract with the State of Tennessee.
