INTRODUCTION

The Fisk University Factbook is an annual compilation of academic and financial statistical data about the university. It provides a snapshot of our operations that can be used to help evaluate institutional effectiveness. The academic data is concentrated on the fall semester of the year, since this is the semester of record for most external reports. Certain functions, such as graduation and financial reporting, lend themselves to being expressed for the entire academic and fiscal years and are so reported

Fisk University Rankings

Fisk University is ranked among the National Liberal Arts Colleges by U.S. News and World Report in its 2003 Edition of "America's Best Colleges." The National Science Foundation ranks Fisk University as one of the highest per capita producers in the nation for the number of its African American Baccalaureates who go on to earn the Doctorate in the Natural Sciences. For the sixth consecutive year Fisk is included in Princeton Reviews "Top 351 Colleges and Universities."

A STATEMENT OF PURPOSE

Since it's founding in

1866, Fisk has committed itself to providing an excellent liberal arts education for students irrespective of race, sex, and religion. While from its earliest days the university has exhibited a concern for the needs and problems of black Americans, it has always been an academic haven to all citizens of America and the world. Indeed, of the eight members of the first graduating class, two were white and five were women. Fisk University's traditional mission of leadership development and support for pioneering research is conducted in an atmosphere of respect for ethnic diversity.

As the twenty-first century begins, opportunities for leaders from all ethnic segments of America are increasing. The cultural landscape of our world demands leaders who possess the skill, knowledge, and vision and values that enable them to work effectively with others. Historically black institutions are among the best examples of colleges and universities that preserve cultural heritage, offer academic excellence and present leadership opportunities to black students and other ethnic groups.

THE MISSION

The mission of Fisk University is to provide a liberal arts education of highest quality. The University's primary goal is to prepare students to be skilled, resourceful, and imaginative leaders who can effectively address the challenges of life in a technological society, a pluralistic nation and a multicultural world.

^{*}Part-time FTE is calculated by dividing the number of credit hours taught by the part-time faculty by 12, which is a full-time teaching load. Since full-time faculty are associated with a Division, not Core or Honors, it somewhat misleadingly appears that for these latter programs there are no faculty who are employed full-time.
