

Future Scientists Circle

Building Tomorrow's Scientific Leaders at Fisk University

Fisk University invites you to become a founding member of the Future Scientists Circle, a special community of individual donors committed to building the next generation of leaders in science and healthcare.

Your contribution to the Allied Sciences Building campaign is not just a gift, it's a legacy that will shape opportunity, discovery, and equity in STEM for decades to come.

A Historic Opportunity

The new Allied Sciences Building will be the first new classroom facility on Fisk's campus in over 60 years, providing state-of-the-art laboratories, collaborative spaces, and innovative learning environments for our students.

Your Impact

The first new classroom facility on campus in over 60 years

Access to state-of-the-art laboratories and collaborative learning spaces

Opportunities for Pell-eligible and first-generation students to thrive in STEM

Fisk's growing role in national and global scientific advancement

Together, we will ensure that the legacy of Fisk's scientific excellence lives on for this generation and the next.
